

FCC,

It should not be up to the National Association of Broadcasters to dictate what I am permitted to hear on a service for which I pay fee.

As a XM satellite radio subscriber and listener, I find great benefit from the programming offered on XM especially the traffic and weather channels. I get programming on XM in a variety and quality not available elsewhere. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.

Very respectfully,

Roy Hinkle

XM Subscriber
